PROFESSIONAL SUMMARY

Lead Full Stack Engineer with 5+ years shipping production SaaS products. Specialized in React, Next.js, TypeScript, and multi-tenant architecture with real-world experience across fintech, freight, healthcare, and microfinance. Led a multi-tenant mortgage SaaS platform from zero to production. Built a fleet safety compliance platform, an AI-powered HR assistant, a microfinance loan management system across 14 branches, and a Sanity CMS-driven marketing site. Author of two published Kindle books on AI productivity and developer performance. Based in Lahore, Pakistan. Open to remote roles with PST/EST/GMT overlap.

CORE SKILLS

React / Next.js / TypeScript | Sanity CMS / Headless CMS | Stripe Payments
Multi-Tenant Architecture | Role-Based Access Control (RBAC) | Tailwind CSS
Node.js / NestJS / REST APIs | PostgreSQL / Prisma / TypeORM
AWS / Vercel / CI-CD | Framer Motion / Performance Optimization | OpenAI / AI APIs
WordPress / Shopify / Wix | ISR / SSG / SSR / App Router

PROFESSIONAL EXPERIENCE

Lead Full Stack Engineer | Cloudpacer

Aug 2022 - Present

Promoted to lead role. Owns frontend architecture and full stack delivery for production SaaS products.

- **Architected and built a multi-tenant mortgage SaaS platform** from zero to production. Designed tenant-aware UI, RBAC with 4 role levels, Stripe subscription billing, AI chatbot integration, and AWS deployment. Platform serves multiple organizations with active paying customers.
- **Built the Fleet Safety and FMCSA Compliance Platform**, a multi-tenant SaaS for trucking carriers. Separate portals for staff and clients, DataQs and CPDP case management, corrective action tracking, audit history, JWT auth with rotating refresh tokens.
- **Shipped Neblo.ai marketing site** using Next.js 16 App Router with Turbopack. Framer Motion animations isolated in client components, Sanity CMS blog with ISR and live webhooks, auto-generated dynamic sitemap, Resend transactional email.
- **Built the Google Chat AI HR Assistant**, a serverless AI tool using Google Apps Script, GPT-4o-mini, Notion API for policy retrieval, and Google Sheets for live employee data. Zero infrastructure, zero deployment overhead.
- **Built MedNotes MVP**, an AI system that converts doctor-patient conversations into structured formal medical reports, supporting clinical workflow documentation.
- **Delivered Loan Management System (LMS)** for a 14-branch microfinance NBFC with 100+ field staff. 5-phase build covering borrower KYC, loan origination, multi-level approval, disbursement, EMI calculation, PAR bucket collections, overdue cron, Excel/PDF regulatory exports, and full audit trail.
- **Owned CI/CD pipelines** on AWS and Vercel, reducing deployment time and enabling preview environments per pull request.

Tech Stack: React, Next.js 16, TypeScript, Tailwind CSS, NestJS, Node.js, PostgreSQL, Prisma, TypeORM, Sanity CMS, Stripe, Framer Motion, AWS, Vercel, OpenAI

Frontend Developer | Napollo Software Design

Jul 2021 - Aug 2022

- **Built WordPress and Shopify storefronts** for client projects including custom themes, Liquid templates, and WooCommerce integrations.
- **Developed interactive React interfaces** from Figma designs, delivering responsive and cross-browser compatible components.
- **Created reusable component patterns** that accelerated delivery across multiple concurrent client projects.

Tech Stack: React, WordPress, Shopify, JavaScript, Figma, HTML/CSS

Web Developer | Spadasoft

Feb 2020 - Jun 2021

- **Built and maintained frontend interfaces** for client-facing web applications, handling responsive layouts, REST API integration, and performance optimization.
- **Improved frontend performance** through code splitting, image optimization, and lazy loading, cutting load times significantly.

Tech Stack: JavaScript, HTML/CSS, SCSS, React, REST APIs, Git

KEY PROJECTS

Neblo.ai - AI Freight Broker Marketing Site

Next.js 16 App Router, Sanity CMS blog with ISR and webhooks, Framer Motion animations, auto-generated sitemap, 8-page fully static SEO-optimized site.

Stack: Next.js 16, Tailwind CSS v4, Framer Motion, Sanity CMS, ISR, Resend, Vercel

Fleet Safety & FMCSA Compliance SaaS

Multi-tenant compliance platform for trucking carriers. DataQs/CPDP case management, corrective action tracking, audit history, separate staff and client portals.

Stack: NestJS, TypeORM, PostgreSQL, React, TypeScript, Tailwind CSS, JWT, Multi-tenant

Google Chat AI HR Assistant

Fully serverless AI HR assistant inside Google Chat. Semantic search over Notion HR policies, live employee data from Google Sheets, rendered as Google Chat Cards v2.

Stack: Google Apps Script, OpenAI GPT-4o-mini, Notion API, Google Sheets, JWT

Loan Management System - 14 Branch Microfinance NBFC

Full loan lifecycle: borrower KYC, loan origination, multi-level approval, disbursement, EMI calculation, PAR collections, nightly overdue cron, Excel/PDF regulatory exports.

Stack: Next.js 16, NestJS, Prisma, PostgreSQL, TypeScript, Multi-tenant, @nestjs/schedule

Mortgage Buddy - Multi-Tenant SaaS Chatbot

Multi-tenant mortgage lead qualification and support SaaS. RBAC, tenant data isolation, admin dashboards, third-party chatbot API integrations.

Stack: Next.js, PostgreSQL, Prisma, ShadCN UI, Tailwind CSS, REST APIs, Vercel
